# E-Verify Fact Sheet

## Successful E-Verify Implementation

- **Requires the use of E-Verify for all or nearly all employees**
- **Requires public contractors and/or state agencies to use E-verify**
- **Requires some public contractors and/or state agencies to use E-verify**
- **Allows an alternative to E-Verify**
- **No legislation supporting or opposing E-verify**
- **Legislation supporting or opposing E-verify**

E-Verify has been proven to be highly accurate and not a burden to employers.

FY 2022 Numbers

Automatically Confirmed	47,244,909
Tentative Non-Confirmation (TNC)	797,504
Confirmed after TNC	57,651
Not Found Authorized	739,853
Uncontested	185,082
Contested	5,285
Unresolved	523,662

Confirmed 98.31% — TNC 1.69%

Confirmed after TNC 0.12% — Not Found Authorized 1.57%

Uncontested 1.11% — Contested 0.01% — Unresolved 0.39%

Employers Who Use It Are Happy with E-Verify

According to the 2020 American Customer Satisfaction Index (ACSI), E-Verify received a user satisfaction score of 87 out of 100, significantly surpassing the national average ACSI score of just 74, which includes both public and private sector programs.

Mass implementation of E-Verify is feasible. Many employers already use it.

Year	Employers
2021	998,000
2020	967,000
2019	891,000
2018	817,000
2017	746,000
2016	679,000
2015	617,000
2014	554,000
2013	483,000
2012	405,000
2011	293,000
2010	227,000
