Detainer Criminality is defined by the Detainer Crime Threat Level, which is based upon the threat level related to the initial crime at the time the detainer is prepared, taking into account the most serious crime level (1, 2, or 3), but regardless of conviction status. ICE began reporting this as of 10/01/2010.

Encounter Criminality is defined by the Encounter Crime Threat Level, which is based upon the threat level related to the initial crime at the time of encounter, taking into account the most serious crime level (1, 2, or 3), but regardless of conviction status. ICE began reporting this as of 10/01/2010.

CDI Criminality is based upon the Apprehension Threat Level. The Apprehension Threat Level is associated with the person's arrest and it reports only on convicted crimes related with that arrest. ICE began reporting this as of 10/01/2010.

Starting in FY2012, ERO Encounters are captured by filtering for the processing officer's program at the time of the encounter and not necessarily related to the event program. ERO Encounters include all ERO Programs except for 287(g) as they report their statistics separately. ERO Programs includes Detention and Deportation (DDP), Fugitive Operations (FUG), Alternatives to Detention (ATD), Criminal Alien Program (CAP), Detained Docket Control (DDC), Non-Detained Docket Control (NDD), Violent Criminal Alien Section (VCS), Joint Criminal Alien Response Team (JCT), Juvenile (JUV), and Law Enforcement Area Response. FY2011 Encounters were reported based on the ERO Program as assigned to the event that led to the encounter. 287(g) Program statistics are not included in ERO Encounters as they report their statistics separately.

For FY2012, Encounter AOR is based on the AOR assigned to processing officer at the time of the encounter. For FY2011, Encounter AOR is based on the Event AOR.

FY2011-FY2012 287(g) Program statistics are included in ERO Detainers.

The Fiscal Years Highlighted in Gray indicate Removals Only, no Returns.  
 Returns include Voluntary Returns, Voluntary Departures and Withdrawals Under Docket Control.  
 In June 2010, Director Morton issued the ICE Civil Immigration Enforcement Priorities memo. The ICE Threat Levels reflect the priorities outlined in the Director's memo beginning October 1, 2010. Prior to FY2011, SC levels 1, 2 and 3 were used for prioritization purposes. Starting in FY2011, criminality is defined by whether or not an alien has the ICE Threat Level (convicted criminal) or not (non-criminal). For FY2011, ICE Threat Level is based upon the RC Threat level associated with the most serious convicted crime(s) (except overturned convictions) for the alien's case up until the point of departure. ICE began reporting this threat level as of 10/01/2010.  
 This report only includes aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by the figures contained in this report for FY2001 through FY2011 are historical and remain static. FY2009 Removals and Returns are a adjusted historic number as of 8/16/2010 and will remain static. Only FY2012 YTD figures are updated in this report.  
 FY2012 YTD data is updated through 10/05/2012 (IIDS v1.10 run date 10/07/2012; EID as of 10/05/2012)  
 Starting in FY2009, ICE began to "lock" removal statistics on October 5th at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year. The number of removals in FY2009, excluding the "lag" from FY2008, was 387,790. The number of removals in FY2010, excluding the "lag" from FY2009, was 373,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732, 33,900 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,155,260 on those 33,900 cases. The number of removals in FY2011, excluding the "lag" from FY2010, was 385,145.

ICE began reporting this threat level as of 10/01/2010. FY 2011 Historical Removals Query is from IIDS October 7, 2011.

FY 2012 YTD data is updated through 10/05/2012 (IIDS v1.10 run date 10/07/2012; HD as of 10/05/2012). For 47 consecutive months (May 2005 through April 2009), ERO has removed more aliens compared to the same month of the preceding year.
