FY 2013 Historical Arrests Details Query is from IIDS October 7th, 2013.

FY13 YTD event dates of October 01, 2013 - September 30, 2013.

FY2014 YTD data is updated through 09/20/2014 (IIDS v1.16 run date 09/22/2014; EID as of 09/20/2014).

Please note that the unassigned AOR records are under further review.

Arrest criminality is based on Apprehension Threat Level. The Apprehension Threat Level is associated with the person's ICE arrest and it reports only on convictions for crimes occurring on or prior to the date of that ICE arrest. ICE began reporting this as of 10/01/2010.

ERO Arrests include all ERO Programs. ERO Programs include Detention and Deportation (DDP), Fugitive Operations (FUG), Alternatives to Detention (ATD), Criminal Alien Program (CAP), Detained Docket Control (DDC), Non-Detained Docket Control (NDD), Violent Criminal Alien Section (VCAS), Joint Criminal Alien Response Team (JCART), Juvenile (JUP), Law Enforcement Area Response (LEA), and 287 (g).

All stats are pulled based on Current Program which attributes all cases back to the Program of the processing officer of the event.

Detention data is updated through 09/20/2014 (IDS v1.16 run date 09/22/2014; EID as of 09/20/2014).

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled ICE Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes.

FY2014 detention data Excludes ORR and MRP facilities, as well as U.S. Marshals Service Prisoners.

Currently Detained No Travel Document Request Details has been modified to better reflect travel documents request for Case Based Detentions

The detention methodology is currently under review. Unlinked detentions are not currently being captured in the detention case-based report. This affects the final order vs. pending final order figures for the detention population.

FY2014 YTD data is updated through 09/26/2014 (HDS v1.16 run date 09/22/2014; ELD as of 09/20/2014).

The figures contained in this report for FY2001 through FY2013 are historical and remain static. Only FY2014 YTD figures are updated in this report.

FY2010-2014 Excludes ORR and MRP facilities, as well as U.S. Marshals Service Prisoners.

FY2014 YTD ALOS Criminality is based on Removal Case Threat Level.

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled ICE Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes.

FY2011-2012 Criminality was based on Definite Criminal Yes No Logic.

All data are pulled based on current program when all routes all cases back to the Program of the processing officer of the event. However, if Current Program = OPL, XXX, ZZZ, or null, then Event Program is used. The ICE Arresting Agency includes the following ERO and HSI Arresting Agency programs: 207g Program, Alternatives to Detention, ERO Criminal Alien Program, Detained Docket Control, Detention and Deportation, Law Enforcement Area Response Unit, Non-Detained Docket Control, Juvenile, Fugitive Operations, Violent Criminal Alien Section, Joint Criminal Alien Response Team, Probation and Parole, Quick Response Team, User Fee Investigations, Joint Terrorism Task Force, Non-User Fee Investigations, HSI Criminal Arrest Only, and Intelligence.

The CBP Arresting Agency includes the following programs: Border Patrol, Inspections, Inspections-Air, Inspections-Land, and Inspections-Sea.

The Other Arresting Agency includes the following USCIS and "Other" Arresting Agency programs: Examinations, Adjudications, Asylum, Office of the Principal Legal Advisor, Default program area for interface records, and PICS Default value - for user initialization only.

FY2010 - 2014 Excludes ORR and MRP facilities, as well as U.S. Marshals Service Prisoners.

The Average Daily Population (ADP) is based on Midnight Count. A MANDAY is based on whether a SUBJECT is in a ERO detention facility for the midnight count. For every SUBJECT in a facility for the midnight count, that corresponds to one MANDAY. The ADP is the number of mandays for a given time period, divided by the number of days in that time period.

FF Data Loss-Closure Logic is defined as the physical removal of an alert occurring in a given month; however, the case is not closed in EARS until a subsequent FF after the data is locked. Since the data from the previous FF is no longer available, the case is not closed in EARS until a subsequent FF after the data is locked. This will result in a higher number of reported removals in an FF than actual deletions.

personnel in its scoring, the FBI used a rating system in the FBI's selection. This was done in order to ensure that the FBI was able to select the best person for the job.

The Fiscal Years Highlighted in Gray indicate Removals Only, no Returns.

Returns include Voluntary Returns, Voluntary Departures and Withdrawals Under Docket Control.

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled ICE Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes.

ERO Removals include aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by Border Patrol. CBP should be contacted for those statistics.

The figures contained in this report for FY2001 through FY2013 are historical and remain static. FY2009 Removals and Returns are a adjusted historic number as of 8/16/2010 and will remain static. Only FY2014 YTD figures are updated in this report.

FY2014 YTD data is updated through 09/20/2014 (IIDS v1.16 run date 09/22/2014; EID as of 09/20/2014).

Starting in FY2009, ICE began to "lock" removal statistics on October 5th at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year. The number of removals in FY2009, excluding the "lag" from FY2008, was 387,790. The number of removals in FY2010, excluding the "lag" from FY2009, was 373,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732, 33,900 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,155,260 on those 33,900 cases. The number of removals in FY2011, excluding the "lag" from FY2010, was 385,145. The number of removals in FY2012, excluding the "lag" from FY2011, was 402,919. The number of removals in FY2013, excluding the "lag" from FY2012, was 363,144.

FY Data Lag/Case Closure Lag is defined as the physical removal of an alien occurring in a given month; however, the case is not closed in EARM until a subsequent FY after the data is locked. Since the data from the previous FY is locked, the removal is recorded in the month the case was closed and reported in the next FY Removals. This will result in a higher number of recorded removals in an FY than actual departures.

<p>The ICE Threat Levels reflect the priorities outlined by Director Morton's June 2010 Memorandum entitled ICE Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violation). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes.</p> <p>ERO Removals include aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by Border Patrol. CBP should be contacted for those statistics.</p> <p>The figures contained in this report for FY2001 through FY2013 are historical and remain static. FY2009 Removals and Returns are a adjusted historic number as of 8/16/2010 and will remain static. Only FY2014 YTD figures are updated in this report.</p> <p>FY2014 YTD data is updated through 09/20/2014. AIDS v.16 run date 09/22/2014; EID as of 09/20/2014.</p> <p>Starting in FY2009, ICE began to "lock" removal statistics on October 5th of the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year. The number of removals in FY2009, excluding the "log" from FY2008, was 387,700. The number of removals in FY2010, excluding the "log" from FY2009, was 373,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732, 33,900 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,153,266 on those 33,900 cases. The number of removals in FY2011, excluding the "log" from FY2010, was 383,145. The number of removals in FY2012, excluding the "log" from FY2011, was 402,919. The number of removals in FY2013, excluding the "log" from FY2012, was 363,144.</p> <p>FY Data Log Case Closure Log is defined as the physical removal of an alien occurring in a given month; however, the case is not closed in EARL until a subsequent FY after the data is locked. Since the data from the previous FY is locked, the removal is recorded in the month the case was closed and reported in the next FY Removals. This will result in a higher number of recorded removals in one FY than actual departures.</p>

The ICE Threat Levels reflect the priorities outlined in Director's Order 1, June 2010 Memorandum entitled "ICE Civil Immigration Enforcement Priorities Effective October 1, 2010." Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes.

FY 2013 Historical Removals Query is from IIDS October 7, 2012.

FY 2013 Year to Date Removals are from the FY2013 year-end Removals queries, filtered on Departed Case Close Date <09/21/2013.

FY2014 YTD data is updated through 09/20/2014 (IIDS v1.16 run date 09/22/2014; EID as of 09/20/2014).

For FY consecutive months (April 2009 through April 2009), ERO has removed more aliens compared to the same month of the preceding year.

ERO Removals include aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by Border Patrol. CBP should be contacted for those statistics.

Starting in FY2009, ICE began to "lock" removal statistics on October 31st at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in their fiscal year but not confirmed until after October 31st were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 31st into the next fiscal year. The number of removals in FY2009, excluding the "lag" from FY2008, was 387,790. The number of removals in FY2010, excluding the "lag" from FY2009, was 373,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732, 33,890 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,152,200 on these 33,890 cases. The number of removals in FY2011, excluding the "lag" from FY2010, was 383,145. The number of removals in FY2012, excluding the "lag" from FY2011, was 402,918. The number of removals in FY2013, excluding the "lag" from FY2012, was 361,144.

Note: FY13 YTD figures represent an entire year's worth of case management updates that have not yet occurred for FY13 cases. Based on historical trends, comparison of same week numbers between FY's are expected to fluctuate throughout the year; the ultimately decrease as the year progresses.
