

Nonimmigrant Admissions to the United States: 2008

RANDALL MONGER AND MACREADIE BARR

Nonimmigrants are foreign nationals granted temporary entry into the United States. The major purposes for which nonimmigrant admission may be authorized include temporary visits for business or pleasure, academic or vocational study, temporary employment, and to act as a representative of a foreign government or international organization. The Department of Homeland Security (DHS) collects information on the characteristics of certain nonimmigrant admissions, those recorded on the I-94 Arrival/Departure Record. This Office of Immigration Statistics *Annual Flow Report* presents information gathered from the I-94 on the number and characteristics of nonimmigrant admissions to the United States in 2008.¹

During 2008, there were 175 million nonimmigrant admissions to the United States according to DHS workload estimates.² These included tourists and business travelers from Canada, Mexican nationals with Border Crossing Cards, and all admissions requiring the submission of an I-94 form. I-94 admissions accounted for 23 percent (39 million) of the total admissions. The majority (90 percent) of I-94 admissions were short-term visitors, such as tourists and business travelers, while the remaining 10 percent (3.7 million) were temporary residents characterized by a longer duration of stay, such as specialty workers, students, and nurses (see Figure 1 and Table 1). The leading countries of citizenship for I-94 admissions were Mexico, the United Kingdom, and Japan.

DEFINING "NONIMMIGRANT"

A nonimmigrant is defined by Section 101(a)(15) of the Immigration and Nationality Act (INA) as an alien who is not an immigrant and is admitted in one of the nonimmigrant alien classes of admission. A person granted lawful permanent resident status³ is authorized to live, work, and study in the U.S. permanently; conversely, a nonimmigrant is in a temporary status as a visitor or short-term resident for a specific purpose and whose activities, such as employment, travel, and accompaniment by dependents, are prescribed by his or

her class of admission. Examples of nonimmigrant classes of admission include foreign government officials; temporary visitors for business or pleasure; aliens

³ Commonly referred to as a legal permanent resident (LPR) or "green card recipient."

in transit; treaty traders and investors; academic and vocational students; temporary workers; exchange visitors; athletes and entertainers; victims of certain crimes; and family members of U.S. citizens, LPRs, and special immigrants. Maximum duration of stay is determined by class of admission.

THE NONIMMIGRANT ADMISSIONS PROCESS

Defining “Admissions”

In this report, nonimmigrant admissions refer to number of events (i.e., entries into the U.S.) rather than persons. As such, one nonimmigrant may enter the U.S. more than once, and each entry would count as a separate admission record. Admission numbers presented in this report will differ from the number of Department of State visa issuances, which includes all visas that were issued regardless of whether the foreign national entered the United States.

Eligibility

In order to qualify for admission in a nonimmigrant status, a foreign national must meet all of the following criteria: provide evidence that the visit will be temporary, agree to depart at the end of the authorized stay, possess a valid passport, maintain a foreign residence (in most cases), be able to provide proof of financial support, be admissible to the U.S. or have been granted a waiver for any grounds of inadmissibility, and abide by the terms and conditions of admission.

Documentary Requirements

Applicants for nonimmigrant admission are required to complete an I-94 form to enter the United States. However, Mexican nationals with Border Crossing Cards (when traveling within the border zone for a limited duration) and tourists and business travelers from Canada are generally exempt from the I-94 requirement.

The Border Crossing Card (BCC) or “laser visa” issued to Mexican nationals is a machine-readable card that is valid for 10 years and contains a biometric indicator, such as a fingerprint. Applicants for a BCC must meet the same qualifications as applicants for a B1/B2 visa (temporary visitor for business or pleasure), have a valid Mexican passport, and demonstrate that they have ties to Mexico that would compel them to return.

I-94 Arrival/Departure Record Admissions. An I-94 form is required for all nonimmigrants entering the United States except the Canadian and Mexican citizens described above. The remainder of this report will focus on I-94 admissions.

Visa Required

If a visa is necessary for entry, the foreign national must apply at a U.S. embassy or consulate. The *Nonimmigrant Visa Application*, Form DS-156, must be completed and signed for all applicants; further, an interview is required for all applicants aged 14 to 79 years. Possession of a visa allows a foreign national to travel to a U.S. port of entry but does not guarantee admission. A U.S. Customs and

Border Protection (CBP) officer determines whether the nonimmigrant may enter the U.S. and the permitted duration of stay. Foreign nationals with a nonimmigrant visa must complete the I-94 form.

Visa Waiver Program

The Visa Waiver Program (VWP) allows nationals from participating countries to travel to the United States as tourists or business travelers without a visa for a period not to exceed 90 days. It was established, initially as a pilot program, in 1986 with the intent to eliminate barriers to travel, to facilitate tourism, and to promote better relations with U.S. allies. Qualified nationals of VWP-participating countries must possess a machine-readable passport valid for six months beyond their expected stay, travel on an approved carrier and possess a return trip ticket if arriving by air or sea, and demonstrate both intent to stay 90 days or less and sufficient funds to support themselves during their stay. Nationals from VWP countries must obtain a visa if they are traveling to the U.S. for a purpose other than tourism or business or if their stay will exceed 90 days. Those entering under the VWP must complete the I-94W form.

In 2008, 27 countries participated in the visa waiver program: Andorra, Australia, Austria, Belgium, Brunei, Denmark, Finland, France, Germany, Iceland, Ireland, Italy, Japan, Liechtenstein, Luxembourg, Monaco, the Netherlands, New Zealand, Norway, Portugal, San Marino, Singapore, Slovenia, Spain, Sweden, Switzerland, and the United Kingdom.⁴

Classes of Admission

For the purpose of this report, nonimmigrant classes of admission are grouped into the following broad categories based on grounds for admission into the United States and expected duration of stay: “short-term resident” (herein referred to as residents), “non-resident,” and “expected long-term resident.” This categorization differentiates nonimmigrants who live in the United States while working or studying from other nonimmigrants. The former are usually considered U.S. residents for purposes of official population enumeration. Resident nonimmigrant classes of admission include temporary workers and trainees, students, treaty traders and investors, intracompany transferees, representatives of foreign media, exchange visitors, and others (see Appendix A). Non-resident nonimmigrant classes of admission include temporary visitors for business or pleasure, foreign nationals in transit through the United States, and commuter students. The expected long-term resident category includes fiancé(e)s of U.S. citizens and their children and victims of trafficking and abuse. The majority of foreign nationals admitted in expected long-term classes are expected to apply for and to be granted lawful permanent resident status.

⁴A similar visa-free entry program exists for nationals of certain countries seeking admission to Guam only—the Guam Visa Waiver Program. In addition to the 27 countries included in the Visa Waiver Program, 10 more countries are included in the GVWP: Indonesia, Malaysia, Nauru, Papua New Guinea, Samoa, South Korea, Solomon Islands, Taiwan, and Vanuatu. The vast majority of GVWP admissions are processed through Agaña, Guam.

DATA

The data in this report were obtained from the Treasury Enforcement Communications System (TECS) of CBP which compiles and maintains information collected from nonimmigrants on the I-94 Arrival/Departure Record. Information collected on the I-94 form includes arrival and departure dates, port of entry, class of admission, country of citizenship, state of destination, age, and gender.

TRENDS AND CHARACTERISTICS OF NONIMMIGRANT ADMISSIONS

Between 2007 and 2008, I-94 admissions increased 6 percent from 37.1 million to 39.4 million—the largest number of I-94 admissions recorded in a year. Nonimmigrant admissions decreased after

September 11, 2001, but had recovered to pre-2001 levels by 2006. During the 20-year period from 1988 to 2008, the annual number of I-94 admissions increased by almost threefold.

As outlined under the section titled “Classes of Admission,” I-94 admissions have been divided into resident, non-resident, and expected long-term resident categories. Residents accounted for between 9 and 10 percent of I-94 admissions in each year from 2006 to 2008 (see Table 1). During this period, non-residents represented 90 percent of annual I-94 admissions, while expected long-term residents accounted for only two-tenths of a percent. Resident and non-resident admissions are discussed separately below; the expected long-term resident category is not included because of low admission numbers.

Table 1.

Nonimmigrant Admissions (I-94 only) by Category of Admission: Fiscal Years 2006 to 2008

Category of admission	2008		2007		2006

SHORT-TERM RESIDENT ADMISSIONS

Resident nonimmigrant admissions increased 3.4 percent from 3.6 million in 2007 to 3.7 million in 2008, continuing a long-term upward trend (see Figure 1). Resident admissions increased each year between 2003 and 2008 (following a post-2001 decline), for a total increase of 36 percent. From 1988 to 2008, the annual number of resident nonimmigrant admissions increased by more than threefold.

Class of Admission

The leading resident nonimmigrant categories in 2008 were temporary workers and families (53 percent) and students (25 percent) (see Table 2). These two categories accounted for over three-quarters of resident admissions. This composition remained relatively unchanged from 2006 to 2008.

Admissions of temporary workers and trainees declined slightly (1.4 percent) from 2007 to 2008. H1B admissions declined 11 percent from 461,730 in 2007 to 409,619 in 2008. Entries of seasonal nonagricultural workers (H2B and H2R) declined 29 percent from 154,895 in 2007 to 109,621 in 2008.⁵ Student admissions rose 9 percent from 2007 to 2008, and 94 percent of that increase reflected academic student entries (F1). Entries of intracompany transferees (L1) grew 5.3 percent from 2007 to 2008, and exchange visitor admissions (J1) increased 3.5 percent during the same period.

⁵ Issuances of H2R (returning H2B workers not subject to annual numerical limits) ceased at the end of 2007.

Country of Citizenship

The leading countries of citizenship for resident nonimmigrant admissions to the United States in 2008 were Mexico (12 percent), India (12 percent), Japan (7 percent), South Korea (5.9 percent), and the United Kingdom (5.9 percent) (see Table 3). These five countries accounted for more than 40 percent of resident nonimmigrant admissions to the United States. From 2007 to 2008, notable increases in resident nonimmigrant admissions occurred among citizens from China (19 percent increase), Mexico (16 percent increase), and India (5.6 percent increase). The increase in admissions from China was largely accounted for by academic students (F1) and exchange visitors (J1). The increase from Mexico was primarily attributable to seasonal agricultural workers (H2A). Increased admissions from India were concentrated among academic student (F1) and intracompany transferee (L1) classes. Among top-ten sending countries, Japan and the United Kingdom had declining resident admissions from 2007 to 2008. The decrease in admissions from the United Kingdom (4.4 percent decrease) was concentrated among workers in specialty occupations (H1B), while the decrease from Japan (4.3 percent decrease) was attributable to academic students (F1) and workers in specialty occupations (H1B).

Select Classes of Admission by Country of Citizenship

The leading countries of citizenship for H1B admissions in 2008 were India (38 percent), Canada (5.7 percent), and the United Kingdom (4.7 percent) (see Table 4). Nationals from these three countries accounted for 48 percent of H1B admissions. In 2008, leading source countries for L1 admissions included India (17 percent), the United Kingdom (14 percent), and Japan (9.8 percent) (see Table 4). Forty percent of L1 admissions were accounted for by nationals of these three countries.

Nearly half of academic student admissions (F1) were nationals of five countries: South Korea (15 percent), China (11 percent), India (9.9 percent), Japan (6.8 percent), and Mexico (6.3 percent) (see Table 5). Between 2006 and 2008, South Korea, China, and India showed consistent increases in F1 admissions, while admissions from Japan declined during the same period.

State of Destination and Port of Entry

The most frequent destinations of resident nonimmigrant admissions in 2008 were California (14 percent), New York (13 percent), Texas (7.9 percent), Florida (7.1 percent), and New Jersey (4.3 percent) (see Table 6). These five states represented the destinations of nearly 50 percent of foreign nationals admitted.

The majority of resident nonimmigrants were admitted through the following ports of entry: New York (16 percent), Los Angeles (8.1 percent), Chicago (7.9 percent), Newark (7.2 percent), Miami (6.5 percent), and Washington, D.C. (6.2 percent) (see Table 7). In 2008, these six ports represented over half (52 percent) of resident admissions.

Age and Gender

In 2008, more than half (55 percent) of resident admissions were accounted for by individuals aged 25 to 44 (see Table 8). Another 23 percent of admissions were by persons aged 18 to 24. The majority (61 percent) of resident nonimmigrant admissions were males (see Table 8).

Table 6.

Short-term Resident Nonimmigrant Admissions by State of Destination: Fiscal Years 2006 to 2008

NON-RESIDENT ADMISSIONS

Trends in non-resident admissions paralleled trends in both resident admissions and total I-94 admissions. Non-resident admissions increased 6.4 percent from 33.3 million in 2007 to 35.4 million in 2008 (see Figure 1). Admissions declined following September 11, 2001, but subsequently increased each year between 2003 and 2008. In 2008, non-resident admissions surpassed previous peaks observed in 2000 and 2007. During the 20-year period from 1988 to 2008, annual non-resident admissions increased almost threefold.

Class of Admission

The leading non-resident nonimmigrant categories in 2008 were temporary visitors for pleasure (83 percent) and temporary visitors for business (16 percent) (see Table 9). These categories accounted for nearly all non-resident admissions. Admissions of

temporary visitors for pleasure increased 7.1 percent from 2007 to 2008 largely due to a 12 percent increase in tourist (WT) admissions under the Visa Waiver Program.

Country of Citizenship

In 2008, the leading countries of citizenship for non-resident admissions were Mexico (19 percent), the United Kingdom (15 percent), Japan (10 percent), and Germany (5.5 percent) (see Table 10). These four countries accounted for the citizenship of half of all non-resident admissions. Between 2007 and 2008, the largest increases occurred among nationals of Italy (23 percent increase), France (22 percent), the Netherlands (19 percent), Germany (17 percent), and Brazil (15 percent). Nonresident admissions from Japan decreased 5.3 percent, and admissions from Mexico decreased 2.6 percent.

State of Destination and Port of Entry

The primary destination states for non-resident admissions in 2008 were California (17 percent), Florida (16 percent), New York (14 percent), and Texas (7 percent) (see Table 11). These four states accounted for the destinations of more than half of non-resident admissions. The greatest percentage increases in admissions from 2007 to 2008 among leading destination states include New York (18 percent increase), Florida (11 percent), Nevada (10 percent), and New Jersey (10 percent). During the same period, admissions to Hawaii declined 5 percent, and admissions to Guam declined 3.4 percent.

The leading ports of entry for non-resident admissions in 2008 were New York, NY (13 percent), Miami, FL (11 percent), and Los Angeles, CA (9.2 percent) (see Table 12). These three ports of entry accounted for one-third of non-resident admissions. Newark, NJ admissions increased 18 percent and New York, NY admissions increased 15 percent between 2007 and 2008, while entries through Honolulu, HI and Agana, Guam decreased 7.9 percent and 4.1 percent respectively.

Age and Gender

In 2008, 60 percent of non-resident admissions consisted of foreign nationals aged 25 to 54, an additional 20 percent were aged 55 and over, and 11 percent were under the age of 18 (see Table 13). More than half (52 percent) of all non-resident admissions were accounted for by males (see Table 13).

Appendix A.

Nonimmigrant Classes of Admission

Class	Description
Non-residents	
Temporary visitors for pleasure	
B2	Temporary visitors for pleasure
WT	Visa Waiver Program – temporary visitors for pleasure
GT.	Guam Visa Waiver Program – temporary visitors for pleasure to Guam
Temporary visitors for business	
B1	Temporary visitors for business
WB	Visa Waiver Program – temporary visitors for business
GB	Guam Visa Waiver Program – temporary visitors for business to Guam
Transit aliens	
C1	Aliens in continuous and immediate transit through the United States
C2	Aliens in transit to the United Nations
C3	Foreign government officials, their spouses, children, and attendants in transit
Commuter students	
F3.	Canadian or Mexican national academic commuter students
M3	Canadian or Mexican national vocational commuter students
Short-term Residents	
Temporary workers and families	
Temporary workers and trainees	
H1B	Workers in specialty occupations
H1B1	Chile and Singapore Free Trade Agreement aliens
H1C	Registered nurses participating in the Nursing Relief for Disadvantaged Areas
H2A	Seasonal agricultural workers
H2B	Seasonal nonagricultural workers
H2R	Returning H2B workers
H3	Trainees
H4	Spouses and children of H1, H2, or H3
O1	Workers with extraordinary ability or achievement
O2	Workers accompanying and assisting in performance of O1 workers
O3	Spouses and children of O1 and O2
P1.	Internationally recognized athletes or entertainers
P2.	Artists or entertainers in reciprocal exchange programs
P3.	Artists or entertainers in culturally unique programs
P4.	Spouses and children of P1, P2, or P3
Q1	Workers in international cultural exchange programs
R1	Workers in religious occupations
R2	Spouses and children of R1
TN.	North American Free Trade Agreement (NAFTA) professional workers
TD.	Spouses and children of TN
Intracompany transferees	
L1.	Intracompany transferees
L2.	Spouses and children of L1
Treaty traders and investors	
E1.	Treaty traders and their spouses and children
E2.	Treaty investors and their spouses and children
E3.	Australian Free Trade Agreement principals, spouses and children
Representatives of foreign information media	
I1	Representatives of foreign information media and spouses and children
Students	
F1.	Academic students
F2.	Spouses and children of F1
M1	Vocational students
M2	Spouses and children of M1
Exchange visitors	
J1.	Exchange visitors
J2.	Spouses and children of J1

Appendix A.

Nonimmigrant Classes of Admission – Continued

Class	Description
Diplomats and other representatives	
A1	Ambassadors, public ministers, career diplomatic or consular officers and their families
A2	Other foreign government officials or employees and their families
A3	Attendants, servants, or personal employees of A1 and A2 and their families
G1	Principals of recognized foreign governments
G2	Other representatives of recognized foreign governments
G3	Representatives of nonrecognized or nonmember foreign governments
G4	International organization officers or employees
G5	Attendants, servants, or personal employees of representatives
N1 to N7	North Atlantic Treaty Organization (NATO) officials, spouses, and children
Other categories	
Q2	Irish Peace Process Cultural and Training Program aliens
Q3	Spouses and children of Q2
Expected Long-term Residents	
Legal Immigration Family Equity (LIFE) Act	
K1	Fiancé(e)s of U.S. citizens
K2	Children of K1
K3	Spouses of U.S. citizens, immigrant visa pending
K4	Children of K3, immigrant visa pending
V1 to V3	Spouses and children of permanent residents, immigrant visa pending
Other categories	
N8	Parents of international organization special immigrants
N9	Children of N8 or international organization special immigrants
